**Dear Mr Kryvonos,**

The Embassy of the Republic of Bulgaria in Ukraine presents its compliments to the Directorate-General for Rendering Services to Diplomatic Missions and has the honour to express its sincere gratitude to the Rembudekspluatatsiia Directorate for the high quality of the repair works carried out on the water supply systems, the heating system, and related construction works. We particularly value the professionalism of your staff and their conscientious and diligent work at the facilities located at 1 Hospitalna Street (Embassy building) and 21 Lesi Ukrainky Boulevard, Apt. 74 (Embassy residence). I would also like to express my high appreciation and special thanks to Roman Tselovanskyi, Deputy Head of the ODS, for his clear, well-coordinated, and excellent organizational management of the above-mentioned works.

During the challenging period of martial law, amid limited resources and adverse weather, GDIP specialists demonstrated outstanding professionalism, responsibility, and dedication. Your coordinated efforts ensured the uninterrupted operation of the heating and water supply systems, which are vital to maintaining stable operations and security.

We sincerely thank the management and the entire team for their efficiency, technical competence, and human support during this challenging time for the country. We wish you strong health, continued professional success, resilience, and peace.

The Embassy of the Republic of Bulgaria in Ukraine presents its compliments to the Directorate-General for Rendering Services to Diplomatic Missions and looks forward to further cooperation and the continued development of mutually beneficial relations.

Kyiv, 6 February 2026

Yours sincerely,

/signed/

Ms Elena Slatinska-Ovanezova
